Results-driven computer information systems graduate seeking a challenging position to apply technical skills and knowledge gained in coursework, with a strong interest...

EXPERIENCE

SPRING 2022 – PRESENT

STORE ALL THE BITS

- Developed and deployed a web-based print job tracking app using Django REST framework, Docker, and PostgreSQL.
- Successfully tracked 3D printing jobs to fulfill orders, improving order fulfillment efficiency.
- Implemented cloud deployment using Docker for seamless scaling and maintenance.
- The system is designed as an evolutionary prototype, enabling continuous improvements.

EDUCATION

JOHNSON COUNTY COMMUNITY COLLEGE

2022

Associate of Applied Science in Computer Information Systems

GPA: 3.5/4.0

JOHNSON COUNTY COMMUNITY COLLEGE -

2019

Data Analytics Certificate.

GPA: 3.3/4.0

SKILLS

- **Programming Languages:** Python, C++, C#, Java
- **Web:** Django, REST framework, Docker, ASP.NET, HTML, CSS
- **Database:** Oracle, Postgres, SQL, ORM
- **Tools:** Docker, Hadoop, Hive
- **Software Engr:** SDLC, Data Structures
- **Data Analytics:** R, Tableau
- **Microsoft Office Suite:** Word, Excel, PowerPoint
- **Clifton Strengths:** Learner, Restorative, Individualization, Analytical, Empathy

CERTIFICATION

- AWS Cloud Practitioner (November 2023):
 - Successfully completed AWS certified cloud practitioner certification, demonstrating foundational knowledge of AWS cloud services and principles.
 - Proficient understanding in basic AWS best practices, key services, and the shared responsibility model.
 - Solid foundation in cloud computing, cloud environments and basic security concepts.
